

3 November 1975

MEMORANDUM FOR: See Distribution

SUBJECT : Task Force Meeting of 31 October 1975

1. It was noted that two additional papers were added to the Action Plan (Issues and Answers):

XV. How can better cover arrangements be provided for CIA personnel overseas? (Action: DDO, but all comments welcome) This paper stems from a specific request of the DCI.

XVI. How can timely adoption of new legislation on intelligence be expedited? (Action: DDI with OLC) Paper on this subject prepared by Dick Lehman and reviewed by the Task Force at the 31 October meeting.

2. The Task Force then discussed a paper prepared by Scott Breckinridge on item IX--Agency command and control. It was suggested that the paper be revised to prepare a refutation against the allegation that the Agency does not have good command and control. Scott Breckinridge will address the revision.

3. In addressing III, "By what mechanism could Congressional oversight of the Intelligence Community best be exercised?", it was suggested that we should follow the position that Congress can best determine how it wants to oversee CIA and that it would be presumptuous to have a ready-made legislative package. However, OLC should develop the principles in back of the merits of a joint committee and how we can best protect sources and methods. OLC to prepare principles and rationale of what we want on a joint committee by the Tuesday meeting.

4. In summarizing the Action Plan (Issues and Answers):

I. [] will have a redraft out on Monday, 3 November.
